

April 25, 2022

heñte?,

I would like to thank our staff and students for having patience as we shifted between delivery methods (face-to-face and virtual learning) over the last two years of this global pandemic and natural disasters.

NVIT looks forward to welcoming back our staff and students to reconnect with each other in-person at the start of the 2022 Fall semester.

We gladly welcome the opportunity to return to face-to-face learning as we know this is how students gain the most from instruction and student supports. If you are a returning student, have a wonderful summer break and if you are a new student, we cannot wait to meet you in-person.
